

13 SEER ROOFTOP
Cooling Only

The Perfect Choice for Affordable and Efficient Comfort

Ideal comfort and reliable performance, Lennox is introducing the new 13 SEER Rooftop units, ideal for residences and light commercial application, Other applications are including schools, large halls, warehouses, any outdoor installations, either on ground or roof level, or wherever the requirement is for a heavy duty unit. The Lennox 13 SEER Rooftop units have been design so that installation and service time are reduced.

Enhancing Features

High Reliability

Protection and durability is built in. The Lennox 13 SEER rooftop unit cabinets are Pre-painted and tested to resist the toughest conditions. Our galvanized heavy gauge plate conforms to ASTM-A-653 with a plated galvanized Zinc content of 275g/m². This protection will ensure a rust free unit for years to come. Safety features are included.

Efficient Economical Cooling

There are different components to our Rooftop unit models that make it very efficient and quiet.
Dependable Scroll Compressor: Provides reliable and efficient operation to reduce your electric bills. Maximum quietness is also an integral key characteristic of this compressor.
High Efficiency Coil Design: Provides exceptional heat transfer and low air resistance for high efficiency operation.

Easy Maintenance

Easy Clean filter: The washable filter can be easily removed, cleaned and installed to save on replacement parts cost.
Easy Access: The access doors on the filter, fan motor, and control box sections can be easily removed, this feature is especially important for technicians and maintenance.
